Welcome

Dear Parents/Carers and Students of Year 8,

The Year 8 Assessment Handbook is provided to assist you and your child with the planning of assessment tasks which will take place throughout the year.

This Handbook includes the Irrawang High School Assessment Policy, an outline of assessment tasks and their due dates as well as the outcomes that students will be assessed on. For each assessment task, students will be notified 2 weeks prior to the task being due.

At Irrawang High School, we value student assessment and see students learning being rewarded for the sustained efforts in the classroom and with their studies. We place high expectations on student learning and they will be assessed in variety of ways.

Students are accountable to submit assessable tasks by the due date unless unforeseen circumstances occur. This is where students and their families need to follow the Irrawang High School Assessment procedures to ensure their learning is the priority and they have every chance to complete the task to the best of their academic ability.

Nicole Huxley

Principal

Introduction

This Assessment Handbook provides Year 8 students with information about the procedures relating to Assessment. Students and parents are advised to read the booklet closely and keep it for reference. The following teachers are able to assist students and parents with issues about assessment relating to their Key Learning Area (KLA).

NESA REQUIREMENTS FOR AWARD OF THE NSW RECORD OF SCHOOL ACHIEVEMENT

The NSW Record of School Achievement (ROSA) is generally awarded to eligible students after four years of secondary school. In Years 7 to 10, students study a variety of courses to qualify for the award of the NSW Record of School Achievement. As well as taking the necessary combination of courses, they are also required to apply themselves satisfactorily to their studies.

Eligibility Requirements

To be eligible for the award of the NSW ROSA, you are required to attend a government School or an accredited non-government school. This is usually for a period of four years between the ages of 11 and 16 years. You must follow and complete the pattern of courses required by the Board of Studies.

To complete a course of study for the NSW Record of School Achievement, you must have a satisfactory record of application (effort).

While formal ROSA credentials are only for school leavers, all Year 10 students will be able to access their results electronically and print a transcript of their results. Only students who leave school and who satisfy eligibility requirements for the ROSA will receive the formal credential.

Students who leave school and who are not eligible for a ROSA will be able to receive a Transcript of Study at their time of departure. The Transcript of Study will contain the same information as the ROSA for courses satisfactorily completed.

All students will also have access to a record of their grades through Students Online. Students who receive their HSC will be able to receive a ROSA at the same time as their HSC, detailing their achievement in their earlier years of study.

Mandatory Curriculum Requirements

English	The Board Developed syllabus to be studied substantially throughout Years 7–10. 400 hours to be completed by the end of Year 10.
Mathematics	The Board Developed syllabus to be studied substantially throughout Years 7–10. 400 hours to be completed by the end of Year 10.
Science	The Board Developed syllabus to be studied substantially throughout Years 7–10. 400 hours to be completed by the end of Year 10.
Human Society and Its Environment	To be studied substantially throughout Years 7–10. 400 hours to be completed by the end of Year 10 and must include 100 hours each of History and Geography in Stage 4 and 100 hours each of Australian History and Australian Geography in Stage 5.
Languages Other than English	100 hours to be completed in one language over one continuous 12-month period between Years 7–10 but preferably in Years 7–8.
Technological and Applied Studies	The Board's Technology (Mandatory) Years 7–8 syllabus to be studied for 200 hours.
Creative Arts	200 hours to be completed, consisting of the Board's 100-hour mandatory courses in each of Visual Arts and Music. It is the Board's expectation that the 100-hour mandatory courses in these subjects will be taught as coherent units of study and not split over a number of years.
Personal Development, Health and Physical Education	The Board's mandatory 300-hour course in Personal Development, Health and Physical Education. This integrated course is to be studied in each of Years 7–10.

Attendance

Rules relating to school attendance remain unchanged. A principal may determine that, as a result of absence, course completion criteria might not be met.

As was the case with the School Certificate, a requirement for the award of the RoSA is that students attend until the final day of Year 10 as determined by the school system concerned or by the principal of non-systemic schools. In all cases, schools are to ensure that syllabus outcomes and course study requirements, including indicative hours of study as specified by the Board are met.

Responsibilities

Each student has the responsibility to:

- Understand the NESA course requirements and procedures for each course of study
- Be familiar with and fulfil the requirements of the School Assessment Policy as set out in this handbook
- Provide written evidence of reason for absence from or late submission of formal assessment tasks

Schools have the responsibility to:

- Provide students with assessment programs conducted in a fair and reasonable manner
- Inform students of dates and requirements of assessment tasks
- Provide students with appropriate information about the nature of the task, the requirements of submission and the aspects of the syllabus under assessment
- Provide students with detailed feedback on their performance, in a timely manner

The Irrawang High School Assessment Policy has been designed to ensure:

- Open and accountable procedures for all students consistent with the NESA requirements
- A fair and equitable environment in which each student can achieve individual excellence

Students will be given detailed feedback about each assessment task. The type of feedback will be determined by the Faculty Head Teacher but will include information about the extent to which a student has performed against the assessment outcomes.

Student Assessment

Assessment is a process of gathering information about student achievement at various stages in a course. At Irrawang High School, we use a variety of assessment tasks to assess performance across a range of syllabus outcomes. The nature of tasks varies within and across courses – they include assignments, projects, fieldwork and reports, oral presentations, tests and examinations, portfolios, practical investigations, long term pieces of work and performances. Student's may participate in a variety of informal assessment tasks of an ongoing nature (journals, portfolios, bookwork, classwork) in a calendar year.

In New South Wales, a standards-referenced approach is used to report student achievement. Achievement standards have two important components that can be thought of in terms of what and how well:

- what students are expected to learn; and
- how well they have achieved

The NSW syllabuses state what students at each stage are expected to learn. A to E grade scales describe how well students have achieved.

Schools are responsible for awarding each student who completes a Stage 5 course or a Stage 6 Preliminary course (except Life Skills and VET courses) a grade to represent that student's achievement. The grade is reported on the student's RoSA or HSC Record of Achievement. Teachers make professional on-balance judgements to decide which grade description best matches the standards their students have achieved.

Students with special education needs may require adjustments to assessment activities to enable access to the task and equitable opportunity to demonstrate what they know and can do.

Stage 4 and 5 assessment tasks are designed to determine how student achievement across the whole range of outcomes for any given course. Assessments also test a wide range of skills, such as oral skills, research skills, practical skills, and examinations.

Notification

Through this handbook students are informed of:

- The components of each course as specified in the course requirements and their respective weightings
- The weightings of each task in relation to the total requirements for the course
- The nature of each assessment task e.g. formal examination, written task, oral task
- The school's policy regarding illness, misadventure and malpractice in assessment tasks
- The school's policy regarding late submission and non-completion of assessment tasks
- The students' entitlements to school reviews and subsequent appeals to the NESA

As well as the Assessment Schedule Booklet (this booklet), each faculty will inform students of upcoming tasks by issuing an Assessment Task Notification Sheet a minimum of 2 weeks prior to the task that contains:

- The date and time the task is to be submitted
- The weighting of the task
- The specific nature of the task
- An indication of the length of the task (word limits/time limits) if applicable
- The time allowed for the task if it is an in-class task
- The outcomes addressed by the task
- The marking criteria used for the task
- Administrative procedures for the collection of the task
- The amount of time that will be allocated during lessons if applicable

If students are absent on the day an Assessment Task Notification Sheet is handed out, they are responsible
Irrawang High School Assessment Information Year 8 2024

for obtaining a copy of it. No extra time will be given to students for a task because they did not receive the task information sheet when it was handed out in class, unless there are exceptional circumstances.

Whilst every attempt is made to ensure that students complete such assessment tasks on time, the due date is not flexible under normal circumstances.

Staff at Irrawang High School are responsible for developing separate course based assessment strategies according to specific syllabus requirements. A variety of assessment tasks will be administered so that students are given the opportunity to demonstrate their achievement of outcomes in an authentic manner. Tasks may be theoretical or practical, short or long term and individually or group achieved.

Completion / Submission

Submission of tasks at Irrawang High School

It is the responsibility of students to ensure that they take assessment tasks at the scheduled time and date and or that they complete a serious attempt at assessment tasks and submit them at the designated time on or before the due date.

Unless otherwise indicated on the Notice of Assessment (Notification), tasks will be accepted by the course teacher during the class period for that subject on the due date. If the teacher is absent or unavailable, tasks must be handed to the Head Teacher responsible for the administration of the course. Tasks submitted after the due date without a successful Student Appeal Form will receive an automatic zero mark. Tasks must never be left on a desk or table for collection by the teacher.

Students must attend school for the full day on the day that an assessment task is due (If a student is absent for a part of the school day and arrives at school to hand in an assessment task later in the day they must have a medical certificate or they will be deemed to have handed in the task late).

Task Non-Completion

If a student fails to complete a task specified in the assessment program without a valid reason (e.g. illness or misadventure) the student will be deducted 10% per day after the due date and a zero mark will be awarded for a task that has not been submitted 5 school days after the due date. Students are expected to make a serious attempt at assessment tasks when submitting late or otherwise. The student will receive feedback about their task regardless of the task being handed in by the due date or after.

The school is not permitted to take into account nor compensate for difficulties in performing or completing assessment tasks even where the problems are caused by factors outside the student's control. Notwithstanding the above, each case will be considered on its merits. The decision made in one case, cannot be construed as a precedent for another. Failure of computers or disks or problems in printing assessment materials will not be accepted as a valid reason for late submission.

Where there is no valid reason for not completing an assessment task, an N Warning (Year 9 and 10) or Academic Concern (Year 7 and 8) letter will be issued indicating the nature of the work not completed and the future action required of the student to redress the situation. The latter will also contain a rescheduled date for the submission of incomplete works.

Plagiarism

Plagiarism is the deliberate use of another person's ideas or work without attribution. Plagiarism is not merely the copying of sections of text from the internet or other sources but can include summarising, modification or appropriation. Plagiarising negates the value of assessment for learning and undermines the purposes of school-based assessment.

A student found to have plagiarised may have a zero-mark awarded for their assessment task score. An Academic Concern (Year 7 and 8) or an N Warning letter (Year 9 and 10) will be issued.

Malpractice

Cheating, plagiarism or copying of another student's work will be viewed seriously by the school. If malpractice is proven then a **zero** result will be recorded for that assessment task and an official warning letter will be issued. Consideration may be given to further action.

Malpractice includes (but is not restricted to) the following:

- Behaviour that adversely affects the performance of other students during the sitting of an assessment task or examination
- Cheating in any form (including having someone such as a tutor complete a take home task)
- Plagiarism from the Internet, books or other sources, or from another person's work
- Providing a false explanation of why work was not handed in by the due date
- Students who are at school but who are recorded as having an unjustified absence at their normal timetabled classes on the day that an assessment task is due or held will be considered to have gained an unfair advantage and consequently have engaged in assessment malpractice

Students are expected to conform to the highest standards of academic integrity and ethical scholarship. If a student is deemed to be guilty of malpractice, a **zero** mark may be awarded for the task. If the results of an assessment task are found to be invalid or unreliable for the entire cohort due to malpractice, then an alternative assessment task may be given.

In addition, if an assessment task reflects a non-serious or frivolous attempt it may be awarded zero. If this was to occur a student would also receive an Academic Concern or N Warning letter.

Finally, if it is found that an assessment task produces invalid or unreliable results then the results of that task may be made void and an alternative task may be administered. The school's protocols for the issuance of an assessment task will be invoked. As a general rule however, except in extra-ordinary circumstances, results of assessment tasks will not be discarded without close and careful consideration.

Appeals / Misadventure

A misadventure is an unavoidable personal circumstance that makes it impossible for you to attend an assessment. Such circumstances do not include family holidays or social engagements.

Students absent (due to illness, misadventure or approved leave) from school on the day an assessment task, test or examination is due to be completed, must complete and submit a Student Misadventure Form **within two days after** their return to school. The Student Misadventure Form can be collected from the Deputy Principal and once completed must include the signature of their Class Teacher, Faculty Head Teacher and parent/carer. When the students know ahead of time that they will be absent for an assessment task they should advise the course Head Teacher prior to the date to complete the task at an agreed time. The advice to the Head Teacher should be made at least two calendar weeks before the assessment is due.

If you fail to complete or submit an assessment task through absence or illness, then you must:

- Contact your Classroom Teacher or Head Teacher as soon as possible. Telephone if the absence is to be more than 2 days. Otherwise inform your teacher on the day of your return to school. In cases where a task has been in preparation for some time, the "working notes" of the task must be presented at this time.
- Collect a Misadventure Form from the Deputy Principal on the first day that you return to school.
- Complete the task on the first day or first subject specific period back from absence.
- Submit a Misadventure Form, with either Doctor's Certificate or Statutory Declaration attached, to the relevant Deputy Principal within two school days of when you return to school. In cases of prolonged absence have someone else present the certificate and form for you.

- Doctor's Certificates are to be obtained the day of the absence, or prior. Provide as much detail as possible to support your case. The Assessment Committee will review each case to determine what penalty, if any will be applied.

This is a serious situation, which in the event of an illness or misadventure requires a Doctor's Certificate or Statutory Declaration by means of explanation.

An appeals panel will be convened and a decision made. The Principal reserves the right to have final judgement on any decision relating to appeals. The decision will be conveyed to the student and / or to the parent(s) of the student. The decision of the panel may be to decline the appeal application, in which case the student would receive a zero mark and be issued with an Academic Concern (Year 7 and 8) or an N Warning letter (Year 9 and 10).

In relation to the Student Misadventure Form, the decision of the appeals panel can be determined as follows:

- Complete an alternate task prior to the set date
- Extension without penalty
- Provide an estimate based on evidence (evidence can be completion of original task)
- Reason unacceptable, mark confirmed of a zero or otherwise

"Technological" breakdown (e.g. computer or printer problems) will NOT be accepted as reasons for an appeal. (Students are advised to save as they develop their task, to print draft copies and hand in either a storage device or draft copy until the final copy can be handed in. Students may also have the option to email their task, if agreed to by the class teacher in consultation with the Head Teacher.)

Note:

- All forms must be completed in blue or black pen
- Forms must be completed neatly providing sufficient information to allow the appeal to be given appropriate consideration
- There is no ground for appeal against the value of the mark given
- The Appeals Panel will maintain a file of all appeals lodged
- A note will be required from the parent / caregiver that clearly states that the student has been affected by illness with specific dates mentioned and a brief description of the condition
- If a student is unhappy with an assessment mark, an interview could be arranged with the classroom teacher. The Head Teacher and parents may be part of this meeting.

Leave

Granting of leave is a matter for the school principal to determine. The principal has discretion in granting leave provided that he/she is satisfied that the reason for the absence is substantial and that the progress of the student towards course outcomes will not be unduly affected. Where the period of leave requested is extensive, the student must demonstrate to the principal that outcomes in each course will be achieved. It should be noted that 'exemption from school' does not necessarily mean that students are 'exempt from completing scheduled assessment tasks. This will be managed on a case by case basis via the appeal process.

Students may engage in alternate approved school based activities (eg school representative sport) so long as the student has communicated and appealed the task, before the date of the assessment, to the classroom teacher or head teacher administering the task.

Extensions

Extensions may be granted before the due date only. Only the Faculty Head Teacher may recommend an extension. Students are required to submit a Student Misadventure Form to the subject Head of Faculty with any appropriate documentation to support the request.

Extensions will only be granted in the most exceptional circumstances and should not be assumed by students. Students should apply for extensions at least seven days before a task is due, except in extraordinary circumstances.

Appeals

Concerns may arise from time to time about aspects of a course. It may be about resources, facilities, another person, an assessment task or an assessment result. The concern could be about an act, missing information, a situation or a decision. If a student feels something is unfair, discriminatory or unjustified, they should see the Teacher or Head Teacher within two days of receiving their task back.

Course Outcomes

Industrial Technology -Timber Outcomes:

A Student:

IND4-1 identifies and applies fundamental WHS principles when working with tools, materials and machines

IND4-2 applies a design process in the modification of projects

IND4-3 identifies and uses a range of hand and machine tools to produce quality practical projects

IND4-4 selects and uses a range of relevant materials for specific purposes

IND4-5 selects and uses communication techniques when designing, making and evaluating projects and ideas

IND4-6 participates in collaborative work practices in the learning environment

IND4-7 applies skills, processes and materials to a variety of contexts and projects

IND4-8 evaluates products in terms of functional use and aesthetics

IND4-9 identifies a range of technologies and their intended uses

IND4-10 describes the impact of technology on society, the environment and cultural issues locally and globally

YEAR 8 GEOGRAPHY SEMESTER 2 ASSESSMENT SCHEDULE 2024

Course Components	Formative Tasks	Task 1	Task 2
Syllabus/Topic Focus	All topics covered	Landscapes and Landforms	Landscapes and Landforms Interconnections
Task Type	Milestone/ Bookwork	Assessment Task	Examination
Week/Term	Throughout the semester	T3 W9/10	T3 W5/6
Assessment Component	20%	40%	40%
Knowledge and understanding of course content	✓	✓	✓
Geographical skills	✓		✓
Geographical tools	✓	✓	✓
Outcomes Assessed	GE4-1, GE4-5, GE4-6	GE4-2, GE4-7, GE4-8	GE4-1, GE4-3, GE4-8

Course Outcomes

Geography Outcomes:

A student:

- GE4-1** locates and describes the diverse features and characteristics of a range of places and environments
- GE4-2** describes processes and influences that form and transform places and environments
- GE4-3** explains how interactions and connections between people, places and environments result in change
- GE4-4** examines perspectives of people and organisations on a range of geographical issues
- GE4-5** discusses management of places and environments for their sustainability
- GE4-6** explains differences in human wellbeing
- GE4-7** acquires and processes geographical information by selecting and using geographical tools for inquiry
- GE4-8** communicates geographical information using a variety of strategies

Outcomes Assessed	HT4-1, HT4-5, HT4-6	HT4-2, HT4-8, HT4-10	HT4-3, HT4-7, HT4-9

Course Outcomes

History Outcomes:

A student:

HT4-1 describes the nature of history and archaeology and explains their contribution to an understanding of the past

HT4-2 describes major periods of historical time and sequences events, people and societies from the past

HT4-3 describes and assesses the motives and actions of past individuals and groups in the context of past societies

HT4-4 describes and explains the causes and effects of events and developments of past societies over time

HT4-5 identifies the meaning, purpose and context of historical sources

HT4-6 uses evidence from sources to support historical narratives and explanations

HT4-7 identifies and describes different contexts, perspectives and interpretations of the past

HT4-8 locates, selects and generalizes information from sources to develop an historical inquiry

HT4-9 uses a range of historical terms and concepts when communicating an understanding of the past

HT4-10 selects and uses appropriate oral, written, visual and digital forms to communicate about the past

YEAR 8 MATHEMATICS ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weighting	Task 1	Task 2	Task 3	Task 4
Syllabus/Topic Focus (Topics are the same for all three differentiated courses) Year 8 Extension Year 8 Stage Year 8 Foundation		Measurement & Pythagoras' Theorem & targeted numeracy areas	Percentages, Finance, Algebraic Techniques & Indices & targeted numeracy skills	Linear Relationships, Rates & Ratios & targeted numeracy areas	Data Analysis & Equations & targeted numeracy areas

Course Outcomes

Mathematics Outcomes:

A student:

MA4-1WM communicates and connects mathematical ideas using appropriate terminology, diagrams and symbols

MA4-2WM applies appropriate mathematical techniques to solve problems

MA4-3WM recognizes and explains mathematical relationships using reasoning

MA4-4NA compares, orders and calculates with integers, applying a range of strategies to aid computation

MA4-5NA operates with fractions, decimals and percentages.

MA4-6NA solves financial problems involving purchasing goods.

MA4-7NA operates with ratios and rates, and explores their graphical representation.

MA4-8NA generalises number properties to operate with algebraic expressions.

MA4-9NA operates with positive-integer and zero indices of numerical bases.

(cont. overpage)

MA4-10NA uses algebraic techniques to solve simple linear and quadratic equations.

MA4-11NA creates and displays number patterns; graphs and analyses linear relationships; and performs transformations on the Cartesian plane.

MA4-12MG calculates the perimeters of plane shapes and the circumferences of circles.

MA4-13MG uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area.

MA4-14MG uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume

MA4-15MG performs calculations of time that involve mixed units, and interprets time zones.

MA4-16MG applies Pythagoras' theorem to calculate side lengths in right-angled triangles, solves related problems.

MA4-17MG classifies, describes and uses the properties of triangles and quadrilaterals, and determines congruent triangles to find unknown side lengths and angles

MA4-18MG identifies and uses angle relationships, including those related to transversals on set of parallel lines.

MA4-19SP collects, represents and interprets single sets of data, using appropriate statistical displays.

MA4-20SP analyses single sets of data using measures of location, and range.

YEAR 8 MUSIC ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weightings	Task 1	Task 2	Task 3
AUSTRALIAN MUSIC (Contemporary, Art, Rock, Pop) Syllabus / Topic Focus		COMPOSITION	PERFORMANCE	AURAL
Task Type		Compose a piece of instrumental or lyrical music and submit a Reflection Log using techniques of the types of Australian contemporary music. Rock/Pop structure or the 12 Bar Blues (Jazz)	Perform a piece, representative of the topics Australian Rock or Pop as a soloist or as a member of an ensemble	Written short responses to listening (Aural) examples based on Australian Rock / Pop / Jazz Music
Week/Term		T1W9	T2W4	T2W6/7
Assessment Component				
PERFORMING	35%		35%

Outcomes Assessed		4.4 4.5 4.6 4.9	4.1 4.2 4.3 4.11 4.12	4.7 4.8 4.9 4.10

Course Outcomes

Music Outcomes:

A student:

4.1 4.2 4.3 4.11 4.12	Develops knowledge, understanding and skills in the musical concepts through performing as a means of self-expression, interpreting musical symbols and developing solo and/or ensemble techniques.
4.7 4.8 4.9 4.10	Develops knowledge, understanding and skills in the musical concepts through listening as a means of extending aural awareness and communicating ideas about music in social, cultural and historical contexts.
4.4 4.5 4.6	Develops knowledge, understanding and skills in the musical concepts through composition as a means of musical creation and problem-solving.

Course Outcomes

PDHPE Outcomes:

A student:

PD4-1 examines and evaluates strategies to manage current and future challenges

PD4-2 examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others

PD4-3 investigates effective strategies to promote inclusivity, equality and respectful relationships

PD4-4 refines, applies and transfers movement skills in a variety of dynamic physical activity contexts PD4-5 transfers and adapts solutions to complex movement challenges

PD4-6 recognises how contextual factors influence attitudes and behaviours and proposes strategies to enhance health, safety, wellbeing and participation in physical activity

PD4-7 investigates health practices, behaviours and resources to promote health, safety, wellbeing and physically active communities

PD4-8 plans for and participates in activities that encourage health and a lifetime of physical activity

PD4-9 demonstrates self-management skills to effectively manage complex situations

PD4-10 applies and refines interpersonal skills to assist themselves and others to interact respectfully and promote inclusion in a variety of groups or contexts

PD4-11 demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences

YEAR 8 PASS ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weightings	Task 1	Task 2	Task 3
Syllabus/Topic Focus		Australia's Sporting Identity	Physical Activity for Health	Ongoing Practical Assessment

Course Outcomes

PASS Outcomes:

A student:

PASS5-1 discusses factors that limit and enhance the capacity to move and perform

PASS5-2 analyses the benefits of participation and performance in physical activity and sport

PASS5-3 discusses the nature and impact of historical and contemporary issues in physical activity and sport

PASS5-4 analyses physical activity and sport from personal, social and cultural perspectives

PASS5-5 demonstrates actions and strategies that contribute to active participation and skilful performance

PASS5-6 evaluates the characteristics of participation and quality performance in physical activity and sport

PASS5-7 works collaboratively with others to enhance participation, enjoyment and performance

PASS5-8 displays management and planning skills to achieve personal and group goals

PASS5-9 performs movement skills with increasing proficiency

PASS5-10 analyses and appraises information, opinions and observations to inform physical activity and sport decisions.

YEAR 8 SCIENCE ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weightings	Task 1	Task 2	Task 3	Task 4
Syllabus/Topic Focus		Ecosystems, Resources & the Water Cycle	Ecosystems, Resources & the Water Cycle, Energy Efficiency and working scientifically skills.	Experiment Design	Ecosystems, Resources & the Water Cycle, Energy Efficiency, the Periodic Table & Chemical Reactions, Body Systems & Biotechnology, working scientifically skills.
Task Type		Research Report	HALF YEARLY EXAM	Student Research Project	YEARLY EXAM

Course Outcomes

Science Outcomes:

Skills: developing knowledge, understanding of and skills in applying the processes of Working Scientifically

Knowledge: develop knowledge of the Physical World, Earth and Space, Living World and Chemical World, and understanding about the nature, development, use and influence of science

A student:

SC4-16CW, SC4-17CW	Explains how scientific understanding of discoveries about the properties of elements, compounds and mixtures relate to their uses in everyday life.
SC4-15LW, SC4-14LW	Explains how new biological evidence changes peoples' understanding of the world.
SC4-12ES, SC4-13ES	Explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resources and management.

(Cont. overpage)

SC4-10PW, SC4-11PW	Discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations.
SC4-8WS	Identifies questions and problems that can be tested and makes predictions, produces a plan to investigate problems and safely undertakes a range of investigation types both collaboratively and individually
SC4-7WS, SC4-9WS	Processes and analyses data from a firsthand investigation and secondary sources to identify trends, patterns and relationships and draw conclusions to solve problems and communicates information using tables, graphs diagrams and scientific reports

YEAR 8 AGRICULTURAL TECHNOLOGY ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weightings	Task 1	Task 2	Task 3

Course Outcomes

Technology Outcomes:

A student:

AG4-1 describes a range of plant species and animal breeds used in agricultural enterprises

AG4-2 outlines the interactions within and between agricultural enterprises and systems

AG4-3 identifies & explains interactions between the agricultural sector and Australia's economy, culture and society

AG4-4 implements responsible production of plant and animal products

AG4-5 identifies how agricultural products are used in industry and by consumers

AG4-6 identifies and uses skills to manage the interactions within plant production enterprises

AG4-7 identifies and uses skills to manage the interactions within animal production enterprises

AG4-8 examines the impact of past and current agricultural practices on agricultural sustainability

AG4-9 identifies aspects of profitability, technology, sustainability and ethics that affect management decisions

AG4-10 implements and appreciates the application of animal welfare guidelines to agricultural practices

AG4-11 undertakes controlled experiments in agricultural contexts

AG4-12 communicates experimental data using a range of information and communication technologies

AG4-13 follows safety and hygiene instructions when using chemicals, tools and agricultural machinery in accordance with Work Health and Safety requirements

AG4-14 demonstrates plant and/or animal management practices safely and in collaboration with others

Outcomes Assessed		TE4-4DP TE4-7DI	TE4-1DP TE4-2DP	TE4-2DP

Course Outcomes

Digital Technologies Outcomes:

A student:

TE4-1DP designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

TE4-2DP plans and manages the production of designed solutions

TE4-4DP designs algorithms for digital solutions and implements them in a general-purpose programming language

TE4-7DI explains how data is represented in digital systems and transmitted in networks

TE4-10TS explains how people in technology related professions contribute to society now and into the future

Course Outcomes

Engineered Systems Outcomes:

A student:

TE4-1DP designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

TE4-2DP plans and manages the production of designed solutions

TE4-3DP selects and safely applies a broad range of tools, materials and processes in the production of quality projects

TE4-8EN explains how force, motion and energy are used in engineered systems

TE4-10TS explains how people in technology related professions contribute to society now and into the future

A student:

TE4-1DP designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

TE4-2DP plans and manages the production of designed solutions

TE4-3DP selects and safely applies a broad range of tools, materials and processes in the production of quality projects

TE4-9MA investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions

TE4-10TS explains how people in technology related professions contribute to society now and into the future

YEAR 8 VISUAL ARTS ASSESSMENT SCHEDULE 2024

Course Components	Syllabus Weightings	Task 1	Task 2
Syllabus/Topic Focus		Critical & Historical Project	Portfolio and Visual Arts Process Diary (VAPD)
Task Type		Analysis of Artists and Artwork	Artmaking
Week/Term		T1W6 or T3W6	T2W5 or T4W5
Assessment Component			
Artmaking	70%		70%
Critical and Historical	30%	30%	
Total	100%	30%	70%
Outcomes Assessed		4.7, 4.9, 4.10	4.1, 4.3, 4.4, 4.5, 4.6

Course Outcomes

Visual Arts Outcomes:

A student:

- 4.1 uses a range of strategies to explore different artmaking conventions and procedures to make artworks
- 4.2 explores the function of and relationships between artist – artwork – world – audience
- 4.3 makes artworks that involve some understanding of the frames
- 4.4 recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts
- 4.5 investigates ways to develop meaning in their artworks
- 4.6 selects different materials and techniques to make artworks
- 4.7 explores aspects of practice in critical and historical interpretations of art
- 4.8 explores the function of and relationships between the artist – artwork – world – audience
- 4.9 begins to acknowledge that art can be interpreted from different points of view
- 4.10 recognises that art criticism and art history construct meanings

YEAR 8 TEXTILES TECHNOLOGY ASSESSMENT SCHEDULE 2024

Outcomes Assessed		TEX4-3, TEX4-6	TEX4-4, TEX4-12	TEX4-5, TEX4-10, TEX4-11

Course Outcomes

Textiles Technology Outcomes:

A student:

TEX4-3 describes the creative process of design used in the work of textile designers

TEX4-4 generates design ideas for textile items

TEX4-5 uses methods of colouration and decoration of textile items

TEX4-6 describes historical, cultural and contemporary perspectives that influence textile design, construction and use

TEX4-10 uses techniques and equipment safely in the production of quality textile projects

TEX4-11 demonstrates skill in the production of textile projects to completion

TEX4-12 identifies aspects of quality in the design and construction of textile items
